THE CLEANING OF STREETS

Department Estimates for the
Next Fiscal Year.An Increase of \$20,000 Asked for
by the Superintendent—A Reorgan-
ization of the Clerical Force
Suggested—Per Diem Employees.Warner Stutler, the Superintendent of
Street Cleaning, yesterday submitted to
the Commissioners his schedule of esti-
mates for the expenses necessary to the
proper conduct of his office for the fiscal
year ending June 30, 1902. The esti-
mates Mr. Stutler also submits a recom-
mendation for the complete reorganiza-
tion of the department. Mr. Stutler em-
phasizes the fact that such a reorganiza-
tion is necessary, and for the purpose
of his office by the adverse
decision of the Treasury Department relative
to the per diem employees.The estimates contain the following
items: For sprinkling, sweeping, and
disposal of ashes from private residences (con-
tract price), \$2,975; for collection and dis-
posal of night soil (contract price), \$17,000;
for collection and disposal of miscellaneous
refuse from hotels, apartment
houses, markets, restaurants, and other
business establishments (not otherwise
provided for), \$35,000; total city refuse,
\$122,000.For cleaning snow and ice from streets,
cross walks, and gutters, under the act
approved March 2, 1897, \$3,000 additional is
asked.
With reference to the collection and dis-
posal of city refuse Mr. Stutler recom-
mends the following items: For collection
and disposal of garbage (contract
price), \$51,500; for collection and disposal
of ashes from private residences (con-
tract price), \$2,975; for collection and dis-
posal of night soil (contract price), \$17,000;
for collection and disposal of miscellaneous
refuse from hotels, apartment
houses, markets, restaurants, and other
business establishments (not otherwise
provided for), \$35,000; total city refuse,
\$122,000.For salaries the recommendations are:
One superintendent, \$2,500; one assistant
superintendent, \$1,800; one chief clerk, \$1,
500; four clerks, \$1,200 each, \$4,800; twenty-
one inspectors, \$1,300 each, \$27,300; one
weighmaster, \$1,300; one foreman of public
dumps, \$900; one foreman at cremato-
ry, \$900; one stable foreman, \$800; one
foreman at property yard, \$700; one assistant
weighmaster, \$700; one messenger
and driver, \$700; total salaries, \$41,500; to-
tal estimate for the department, \$122,500.Mr. Stutler, at this point in his sched-
ule, made a comparison of his estimates
and institutes a comparison between the
expenses provided for during the present
fiscal year and those estimated for the
coming fiscal year, as follows: Hand
cleaning, this year \$80,000, for next year
\$86,750; machine cleaning, this year \$40,000,
for next year \$45,500; cleaning alloys, this
year \$15,000, for next year \$16,125; clean-
ing unimproved streets, this year \$18,000,
for next year \$20,500; labor on public
dumps, this year \$8,000, for next year \$8,
500; sprinkling unimproved streets, this
year \$5,000, for next year \$5,500; horse
and buggy hire, this year \$1,500, for next
year \$1,500; incidental and contingent ex-
penses, for this year \$1,000, for next year
\$1,000. The total expense for the current
year, according to the above statement,
is \$120,000, for which was appropriated
\$125,000, with \$5,000 deficiency. The in-
crease in pay for laborers for the coming
fiscal year is estimated at \$15,000, and the
total expense for the coming fiscal year
is \$135,000, with the two items in-
cluded in the estimate of \$20,000.In explanation of these increased ex-
penditures, Mr. Stutler says:
"In submitting the estimate of \$25,000
for sprinkling, sweeping, and cleaning
streets, avenues, alleys, and suburban
streets, which includes \$15,000 for increase
in the pay of laborers on hand-cleaning,
and \$20,000 for flushing streets, I would
respectfully invite attention to the fact
that for the past year we had an approxi-
mation of \$10,000 deficiency in the esti-
mate of \$10,000, making in all \$10,000. This
amount was not sufficient to continue
the work to the end of the year, and we
were compelled to discontinue
all work for the three last days of the
year. We also took into consideration the
fact that the city is subject to very
light rains, and suspended work on a
number of days in order to avoid a de-
ficiency. For the current year we have
an appropriation of \$15,000, which is
\$14,000 less than the amount required to
do the work."The increased estimate submitted for
the fiscal year 1902 is to provide for a
greater number of days' work during the
year, and for the care of newly paved
streets and alleys added to the schedules
each year, also added unimproved streets
due to street extension, otherwise the nat-
ural growth of the city.
"Fifteen thousand dollars of the in-
crease estimated is to enable us to pay
20 laborers on hand-cleaning work
\$1.50 per day, an increase of 25 cents per
day each. This small increase in their
pay would only be a just recognition of the
unfailing, faithful, and satisfactory
work in which they perform their
work."The estimate of \$20,000 for flushing is
to provide for a thorough cleansing of
the streets during the heated period,
when we have but little or no rain. During
extreme hot weather there is a gully
substance drawn from the asphalt that
disturbs the pavement, matter by the
streets, and nothing but a heavy rain or
flushing will remove it. Flushing will
wash away all of the fine dust and more
of poisonous germs than any other
method of cleaning the streets.
The estimate of \$10,000 for the reorgani-
zation of the department is to provide
for the collection and disposal of night
soil, and the collection and disposal of
garbage, and the collection and disposal
of miscellaneous refuse from hotels, apart-
ment houses, markets, and all other
business places, and the collection and
disposal of night soil. Since the inauguration
of the system of collecting this material from
private residences there has been a demand
for an extension of the service to busi-
ness establishments.In the absence of funds to extend the
service, the ashes and refuse have been
removed from business places by private
parties, and the work is done without
proper supervision, thus causing numer-
ous complaints of the reckless manner in
which the material is collected and hauled
through the streets. Further, the material
is not separated, and the mixture, which
includes paper and other combustible
material, is placed on the public dumps
and on vacant lots, and thus becomes a
serious nuisance by being blown over the
streets and burned on the dumps."Until all the ashes and miscellaneous
refuse are collected and disposed of under
one supervision the service will be de-
fective, and a nuisance rather than a ben-
efit. The appropriation made for the col-
lection and disposal of city refuse was
\$125,000, of which \$10,000 was for the
collection and disposal of night soil, and
\$115,000 for the collection and disposal
of garbage and other refuse. The esti-
mate submitted for the coming fiscal year
is \$135,000, of which \$15,000 is for the
collection and disposal of night soil, and
\$120,000 for the collection and disposal
of garbage and other refuse. The in-
crease of \$10,000 is to provide for the
collection and disposal of night soil, and
the collection and disposal of garbage and
other refuse. The estimate submitted for
the coming fiscal year is \$135,000, of
which \$15,000 is for the collection and
disposal of night soil, and \$120,000 for
the collection and disposal of garbage and
